Dear Jerry:

Warmest thanks to you and the other members of your quartet, from Don and me, for the wonderful music you provided for our wedding. You have a special touch, and several of the guests commented about how nice it was to hear such excellent jazz and all the songs they have enjoyed over the years.

I also wanted you to know how much it meant to my father to "play" at his daughter's wedding. He also played the piano at my husband Dan's funeral, so it was extra special to play at a time of such great happiness for me.

Yours and Merynda's music certainly added a great deal of pleasure and enjoyment to our celebration.

Best wishes,

Polly Patterson
